

RESCUE

Performed and Written by Danny Weltman

VERSE: *Face down in a bed of water Chase was lying
Two years old and already faced with dying
Her sister screamed she's in the water
But she' isn't swimming anymore*

CHORUS: *Don't worry daddy to the rescue
I'll be your hero whenever you need me
Don't worry daddy knows what to do
It took a moment of my life to save yours*

VERSE: *Don't cut way her little smile for the camera
How could that picture be full
Hearts forever broken
So many words unspoken
Thank God mommy made us go*

CHORUS: *Don't worry mommy to the rescue
I'll be your hero whenever you need me
Don't worry mommy knows what to do
It took a moment of our life to save you*

BRIDGE: *Maybe a blessing in disguise
But the light in her eyes almost faded
And Chase was just a baby
She'll be a lady now for sure*

CHORUS: *Don't worry daddy to the rescue
I'll be your hero whenever you need me
Don't worry mommy knows what to do
It took a moment of our life to save yours
Don't worry baby, don't worry baby
Get to see you grow up
To see you make mistakes
And pick you up from school
Because we learned to save you
So don't worry Chasie*
